6 Step Cash Flow System Blueprint

In this blueprint we tap into the creative wisdom of the elements of nature to guide us.

Step 1: SPIRIT ELEMENT WISDOM

Respond to Crisis in a Compassionate Unforgettable Way that Uplifts Others & Yourself to Co-create a new Reality Together. (People do not forget those who help in dire straits.)

When you tune into this Crisis/Challenge notice how people are doing in this crisis. The people you are passionate to connect with (places that serve same demographic), people/businesses you directly support in the world (on a personal/professional level). Might it be a perfect time to team up with your own tribe/email list/followers/community?

Step 2: WATER ELEMENT WISDOM

Reach Out & Connect from a Loving Heart to These Potential Co-creators

Make direct phone calls to potential partners to see if they or their patrons are in need of support or income in this time of crisis. (Send an email, text message them on Facebook or other Social Media, or try to reach them with a Referral Contact from someone you both know.)

- Acknowledge them and the value they bring, and difference they make in your community/world, with those they serve. Let them know you feel it's very important that they are supported to make it through this time and you see there may be some ways you can help depending on their current challenges. Name the challenges you can help with and ask if they'd like to chat more in-depth to create a positive outcome. Set an appointment right on the call if possible.
